24TH SEPTEMBER 2014

Congress: Forest-based Innovation and Research needs for reaping the potential of sustainable habitats for strengthening Europe's low carbon bio-economy

Location: Forestry House on Luxembourg Square

The seminar aims to inform policy decision makers on European and regional level about the innovative developments and potentials of sustainable habitats that are based on forest-based materials in Europe's low carbon bio-economy. It will raise the awareness on an important renewable resource that can boost local growths in rural and urban environments.

The screenshot shows the homepage of the Ecoinflow website. At the top left, there is a URL: <http://www.finnishenergy.com/finn/innova/2014/04/23/wednesday/>. The date "Wednesday, April 23, 2014" is displayed in the top right corner. Below the date are flags for the United Kingdom, France, Norway, Germany, Sweden, and Denmark. A search bar is located below the flags. The main navigation menu includes links for Home, About, Industry, News, Results, Partners, Contact, and Intranet. The central banner features a woman in a yellow hard hat and safety vest pointing at a green hexagon labeled "1TWh". To her left is a diagram of interconnected hexagons containing various icons like a gear, a lightbulb, and a globe. The banner text reads "Energy Control by Information Flow" and "Energy efficiency is a journey not a destination". At the bottom left, there is a "Home" link with a house icon. At the bottom right, there is a "Login" link with a user icon. Below the banner, there are social media buttons for Facebook and LinkedIn, with "Like" and "Share" options and a count of "4". A "SAWMILLS MAP" button is visible at the bottom right. The main heading "Welcome to ECOINFLOW" is followed by a paragraph: "The main project objective is to facilitate implementation of state-of-the-art Energy Management System (EMS) for the [sawmilling industry](#) sector. InnovaWood High level meeting

17 June 2015

Programme

The meeting will revolve around the following discussion points:

1. Benchmarking of staff activities, e.g. numbers of papers published, teaching hours, research students, income generation, etc.

This will allow institutions to compare the workloads of their staff to those in similar institutions

2. Tools to monitor staff activities

How do different institutes record the activities of their staff?

3. Evaluation of staff activities

How are staff evaluated? At what frequency and by whom?

4. Incentives for staff

Do they exist? If so what are they?

5. Creating a team spirit within the department/group

Examples from participants on what they do or would like to do

6. How to manage under-performing staff

Sharing of experience and ideas
