11-12 MARCH 2013, BARCELONA, SPAIN  
BARCELÓ SANTS HOTEL - PL. DELS PAÏSOS CATALANS S/N

Nr.	Speaker	Presentation title
1	Pauline Rivière	Carbon Nanotube- reinforced Wood Plastic Composites (WPC)
2	Milena Lakicevic	Application of Analytic Hierarchy Process and Borda count in management of protected areas
3	Federica Melone	LbL-tannase-mediated tannin activation in flow chemical processing
4	Tsvetelina Simeonova	Improving the Environmental Performance of Bulgarian Furniture Industry
5	Michael Schneeberger	Simulation of heat and mass transfer in paper drying to generate energy optimisations
6	Agnieszka Jedraszak	Influence of drying history on mechanical properties of Pinus radiata wood
7	Patrick Huber	Smart use of small-diameter hardwood – a forestry-wood chain sustainability assessment in Austria
8	Ali Akrami	Developing of Oriented Strand Boards from European Beech and Poplar
9	Honorata Gruszka	New technology of packaging papermaking with fines transfer
10	Michael Drass	Innovative Design of Bio-Hybrid Timber Truss Structures
11	Marion Noël	Thermal and thermomechanical analysis of bio-oligomeric treatments for wood
12	Urška Kavčič	2D codes and RFID antennas printed on smart packaging
13	Emina Karišik	Technologies of wood waste energy recovery
14	Jenni Rahikainen	Negative effect of lignin on cellulose bioconversion - lignin model surfaces for the study of cellulase-lignin interactions
15	João Custódio	Rehabilitation of timber structures – evaluating the durability of bonded-in rod joints
16	Gianluca Tondi	Formaldehyde-free tannin-foams
17	Mislav Stepinac	Innovative Timber – Structural Glass Shear Wall Panels in Earthquake Environment
18	Anda Fridrihsone	Tall oil, by product of pulp mills as a raw material for production of rigid PU foams filled with natural fibres
19	Charalampos Lykidis	Recycling of wood based composites using hydrothermal treatments
20	Anna Duplex	Feasibility of green wood peeling assisted by radiant energy
