

EFORWOOD

Sustainability Impact Assessment
of the Forestry - Wood Chain

Project no. 518128

EFORWOOD

Tools for Sustainability Impact Assessment

Instrument: IP

Thematic Priority: 6.3 Global Change and Ecosystems

Deliverable D6.2.4
On-line demonstration version of ToSIA

Due date of deliverable: Month 42

Actual submission date: Month 52

Start date of project: 011105

Duration: 4 years

Organisation name of lead contractor for this deliverable: European Forest Institute (EFI)

Final version

Project co-funded by the European Commission within the Sixth Framework Programme (2002-2006)		
Dissemination Level		
PU	Public	X
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
CO	Confidential, only for members of the consortium (including the Commission Services)	

D6.2.4 On line demonstration version of ToSIA (EFI)

A demonstration version of ToSIA has been developed using the Java Web Start Technology. Supporting web-pages have also been developed to provide access to the application and support content.

WebToSIA is comprised of the following components:

- (1) WebToSIA entry web page (<http://tosia.efi.int/>);
- (2) Support content – explaining what ToSIA is and providing a user guide;
- (3) Examples of simple forest-wood chains (FWCs) for demonstration purposes including the topology and all required (realistic) data;
- (4) Predefined results of ToSIA runs for these FWCs;
- (5) Part of functionality of the full version ToSIA is presented in the "demo" version enabling a more lively and interactive demonstration.

The demo version runs within the WebToSIA. The purpose of the demo versions is to demonstrate the potential and introduce users to the functions of the tool.
