

EFORWOOD

Sustainability Impact Assessment
of the Forestry - Wood Chain

Project no. 518128

EFORWOOD

Tools for Sustainability Impact Assessment

Instrument: IP

Thematic Priority: 6.3 Global Change and Ecosystems

Deliverable D6.3.3
Proceedings from the First EFORWOOD Conference

Due date of deliverable: Month 25 (moved from 18)

Actual submission date: Month 27

Start date of project: 011105

Duration: 4 years

Organisation name of lead contractor for this deliverable: **InnovaWood Ltd.**

Final version

Project co-funded by the European Commission within the Sixth Framework Programme (2002-2006)		
Dissemination Level		
PU	Public	X
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
CO	Confidential, only for members of the consortium (including the Commission Services)	

Proceedings from the First EFORWOOD Conference

The first EFORWOOD Conference took place in Brussels on 1st and 2nd October 2007, hosted by three confederation partners in the project, CEPI, CEI-Bois and CEPF.

The aim of the conference was to transmit the global project message to those who should be the potential users of the project results and to position the EFORWOOD project as a possible instrument for increasing sustainability and competitiveness of the FBS.

In order to make available the conference topics to the wider stakeholder community, the conference presentations were uploaded to the EFORWOOD Portal. In total 13 presentations from keynote speakers and project module leaders give the valuable information about today's hot topics in the forestry based sector and also on the current project results. The uploaded information also included the posters from the conference poster session.
